## Content

## How to assemble

### To start with

Download the application "Picturerium" from AppStore. You can search for the application, by any of the words below; Picturerium, picturerium, PictureAquarium, aquarium, picture

### How to play

#### 1 Set your iPhone on body!

- Choose suitable iPhone frame and set on the body. Activate the application and place your iPhone on the body.
- Place your iPhone facing downwards, making sure the camera lense on the phone is on your left hand side.

#### 2 Draw fish on fish card!

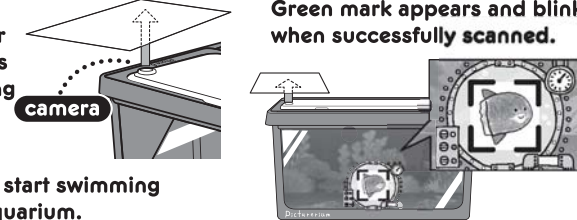

- Make sure you draw a fish with thick black outline, using a pen.
- If outline is either dashed or blurred, scanning won't be successfully done.
- Color it in with a color pen. Be careful not to run off the edge.
- Tips! When you draw a fish, let its head face left, as shown on the example.

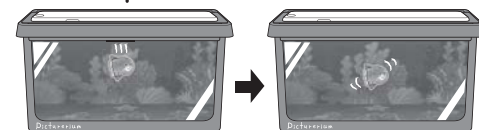

### 3 Let's scan fish card!

BE SURE TO SCAN FISH CARD AS THE FIRST STEP.

- 1 Place fish card above the camera of iPhone. Make sure card is leveled parallel to the camera, and your drawings are facing down.
- 2 Frame will be indicated on the reflection board. Make sure the fish you scan fits in the frame. Green mark appears and blinks when successfully scanned.

- 3 Fish will start swimming in the aquarium.

● You can scan 30 fish at a time, at the maximum.

Having trouble scanning? Below 3 tips will lead you to the successful scanning.

- Scan in a place with full of lights.
- Clean your iPhone camera's lense.
- Place fish card on the table, and scan the card.

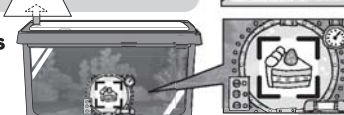

### Other fun features! Let's feed them!

- 1 Draw a food on a Food Card, place it above the camera of iPhone, make sure it is leveled parallel and facing downwards.

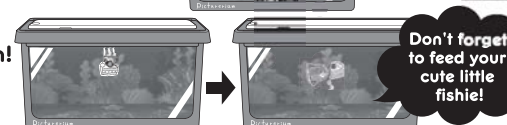

- Make sure you draw a food with thick black outline using a pen.
- If outline is either dashed or blurred, scanning won't be successfully done.

- 2 Green mark appears and blinks when successfully scanned.

- 3 Food appears in the aquarium!

Don't forget to feed your cute little fishie!

### Play with fish!

- 1 If you knock lightly on iPhone 2 times, ! mark will appear on top of fish.

- 2 Place your hand close to the reflection board, and wave your hand from left to right. Fish will show some kind of reaction accordingly!

### Interesting frames are available!

You can either take a photo, or choose a photo from camera roll, and compose an original fish.

### Secret features available, too!

Some interesting event may happen depending on the size of fish and food! Connect to HDMI adaptor (sold separately), and enjoy projecting on TV.

### Trouble shooting

- iPhone goes to sleep soon, while playing. Change your settings on the iPhone.  
Settings > General > Auto-Lock > set your preferred time
- The screen is too dark to look into. Change your settings on the iPhone.  
Settings > Wallpapers & Brightness > adjust to your preferred brightness.
- You can play and charge iPhone at the same time.

Menu will appear when you place your hand above iPhone camera. Please check the webpage for more details.
